PROCUREMENT OF VALENZUELA MEDICAL CENTER PRIMARY AND SECONDARY LINK INTERNET SERVICES

Terms of Reference

I. Background and Rationale:

The increasing number of web-based system that is being deployed to Valenzuela Medical Center (VMC) by the DOH central office and other attached agencies makes us decide to upgrade our internet subscription from 200 Mbps internet dedicated leased line to 500 Mbps with additional redundant connection of 100 Mbps to 200 Mbps. To cope up with this technology we need to upgrade our capabilities and facilities in order to meet the requirements needed. Internet connection upgrade for speed and reliability is one of the major component to run a web based system, teleconferencing platforms and other hospital facilities that needs online interventions, considering the heavy volume of information and various data flowing into the system for processing and up to date output. In addition to this, the VMC present internet connection setup has become less reliable in terms of speed and security. In view of the dire necessity for modern technology to meet the ever increasing demands for efficient and effective information gathering, dissemination, and utilization an internet service upgrade has to be carried out to respond to the needs of the hospital and avail the benefits.

II. Scope of Work:

The project covers the procurement and implementation of the following Internet Services for the entire Valenzuela Medical Center Local Area Network:

9. Provision of 24x7 support services;
10. Enter into a Service Level Agreement with VMC which defines parameters of rebates for non-performance, and similar circumstances;
11. Transfer the fixed connection at no cost to VMC in the event of accidental disconnection/loose connection.

III. Expected Deliverables (Outputs) for Primary and Secondary Link:

1. Inception Report, which will include work plan.
2. **Full 500 Mbps Dedicated Leased line (Primary link) connection from VMC to the Internet.**
3. **Full 200 Mbps Dedicated Leased line (Secondary link) connection from VMC to the internet.**
4. **Pure Fiber Optic Connection from ISP/TelCo to VMC-IMISS facility.**
