2.1 OBLIGATIONS OF THE WINNING BIDDER/CONTRACTOR		
		a. Render architectural and allied engineering design services including final schematic design necessary for the implementation of the Project. The allied engineering design services shall include, but shall not be limited to, design for architectural, civil, structural, electrical, mechanical/fire protection, sanitary/plumbing, electronics, and security systems works. All drawings shall be generated using licensed AutoCAD or Revit software and printed on A1 (594mm x 841mm.) High-Quality Tracing Papers;
		Undertake Detailed Architectural and Engineering Designs (DAEDs) using the given data such as topographic, hydrographic, and cross-section surveys, geotechnical and geological investigation, and hydrologic investigation and initial schematic design or design concept provided by the VMC which conforms with the Minimum Performance Specifications and Standards (MPSS);
		The project shall be constructed according to the DAEDs prepared by the Winning Bidder and approved by the VMC and in compliance with the MPSS. Likewise, construction includes conformance to the provisions pertaining to buildings under the latest edition of the DPWH Standard Specifications for Public Works Structures, Volumes II and III (Blue Book). The Blue Book prescribes, among other things, the material requirements and construction requirements for different items of work, including the tests to be conducted during construction by the DPWH-accredited testing laboratory. The Blue Book incorporates pertinent provisions of the American Society for Testing and Materials (ASTM) and American Concrete Institute (ACI), among other standards, pertaining to construction. Attention shall be given to the relevant items of work in the following Parts of the Blue Book:

		If applicable, secure environmental clearance or an "Environmental Compliance Certificate (ECC)". If the proposed project is considered outside the purview of the Philippine Environmental Impact Statement (EIS) System, a Certificate of Non-Coverage or Certificate of Exemption shall be secured.		
		Supervise and monitor the implementation of the project; and,		
		Pay the accomplishment accepted in conformance with the MPSS included under the Design and Build Contract.		
		2.3 BIDDING DOCUMENTS		
		The Bidding Documents for the Project shall govern the conduct of the procurement of the Project.		
		3. SCOPE OF WORKS		
		3.1 DESIGN PHASE		
		3.1.1 Preliminary Architectural Plan (PAP) by Bidder		
		The building's conceptual design will be given by the VMC. Bidders shall submit also an alternative design concept with respect to the space allocation which provides an optimum use of spaces taking into consideration the offices/wards/emergency room/kitchen area/pharmacy section/conference room shown on the VMC's conceptual floor plans. Wards should have a medical gas system. A Basic Rainwater Catchment System should also be installed. This alternative design by the winning bidder shall be adopted should the same be found to be superior than the one conceptualized by the VMC.		
		3.1.2 Detailed Architectural and Engineering Design (DAED) by the Winning Bidder		
		During the implementation of the Project, the Winning Bidder shall prepare the DAED of the Project and submit the same to the VMC for approval and secure the necessary Building Permit prior to the execution of the construction works.
